PROFESSIONAL SUMMARY

Lead NOC Engineer with 5+ years of experience supporting enterprise production environments for DreamWorks Animation. Expertise in Major Incident Management, Incident Management, SLA governance, Root Cause Analysis (RCA), Change Management, Problem Management, client communication, and ITSM operations. Proven track record of improving operational efficiency through Python automation, Jira workflow automation, SOP development, and process optimization. Recognized by client leadership for delivering exceptional customer support and operational excellence.

EXPERIENCE

Sutherland Global

February 2021 – Present

System Engineer | Lead NOC Engineer (DreamWorks Animation)

- Lead Major Incident Management by coordinating bridge calls, managing critical production incidents, and ensuring SLA compliance.
- Drive Incident, Change, and Problem Management while performing Root Cause Analysis (RCA) and collaborating with client stakeholders.
- Develop and maintain Standard Operating Procedures (SOPs) and train new hires on operational processes, incident handling, and production support.
- Developed Python and Shell automation solutions, including Jira ticket creation and new-joiner access provisioning, to streamline operational workflows and reduce manual effort.
- Received multiple client recognitions from DreamWorks Animation and Sutherland leadership for outstanding customer support and operational excellence.
